# Notes from the president

4/9/20

I am sending this out to all our wonderful members to give all an update as to what is going on. As of right now, all the events we had planned have been postponed, and we are moving them to later dates. This also includes our picnic; it has been moved to Oct 3. The Saturday meeting we had planned in March has been moved to Saturday, June 27 at 10 AM the same place. The wine event that Julia Kuhn is leading is still scheduled for May 30. Please make sure you read all your Evites as well as your emails as we update them. Everything seems to change daily and we have to keep up with the changes. We are working on putting some activities together that we can put together quickly when all this is over. I hope everyone enjoyed the virtual Ice Cream social. It was good to see smiling faces again. I trust everyone is ok and all are healthy. If anyone needs anything, please reach out to me our club has many recourses that we can call on, so don't hesitate to reach out and let me know if you need something.

Joe Quisenberry, President, Lone Star Miata Club

4/20/20

I wanted to bring all up to date as to what your club officers have been doing. We had a virtual online officers meeting on April 16. All were present along with past presidents Howard Banfield as well as Bruce Gibson. We have put together a plan to implement when we can all get together again. It includes some runs without a restaurant stop. We might all have to put a picnic basket and stop somewhere along the route and have a picnic. You will be receiving updated Evites to the events we have put together. Keep in mind that all are subject to change. We also have moved our annual picnic to Saturday, Oct. 3. All else stays the same – location, time, etc. I did send out an update on the Miatas in Margaritaville event in September, and it is still on the to-do list. If you are planning on going, please go ahead with the hotel reservations. They have a cancelation policy built into it 72 hours, which is better than most, so don't be afraid to go ahead with the hotel reservations. Doug Dodgen has added a bright yellow button to the car club site that allows you to use PayPal. One of the other things we did at the meeting was to vote to donate \$1000 dollars to the North Texas Food Bank. Also, all the officers agreed to donate. If you also want to give, Doug has set up the PayPal account at the car club web site. If you know of any members that could use a little help, please let me know. Everyone keep your cars clean, and your tires aired up because this will be over and we can get back to running around the countryside.

Joe Quisenberry, President, Lone Star Miata Club

Instructions from Doug how to use the button

I have put the donate button on the web site. You can get to it at the following URL:

<http://www.internetcarclubs.com/Clubs/LoneStarMiataClub.aspx>

It's a big yellow button you can't miss. It will take you to a donation page but has a DONATE button on it that will take you to PayPal where you will have the option to donate \$10, \$20, \$25, or enter your amount.

Doug and Mary Wharton will monitor the PayPal site.

# Events & Items of Interest

## Don't forget the LSMC website

<http://www.internetcarclubs.com/Clubs/LoneStarMiataClub.aspx>

Doug Dodgen maintains our website to make it the best place to check information about the club. He has added the yearly calendar so you can plan for upcoming rides. If you have questions about editing your information, please contact Doug. The main page of the Lone Star Miata Club part of the website contains a link to our [www.LSMiata.org](http://www.LSMiata.org) blog site where links to newsletters are published.

Check us out at <http://www.internetcarclubs.com/Clubs/LoneStarMiataClub.aspx>!

If you have not renewed your membership for 2020, please do so ASAP. You will be removed from the club roster and from Evites after March 31. Your dues go toward door prizes, club insurance, and supplementing costs for annual events such as the Christmas party and picnic.

## *From your editor*

When you lead a drive, please print participant waivers from <http://lsmiata.org/events/>. It's a good idea to have maps with your phone number printed on them for a trip. Also be sure to bookmark the blog page <http://lsmiata.org> and the website at <http://www.internetcarclubs.com/Clubs/LoneStarMiataClub.aspx> to get all the latest information about us.

## *A note about Evites...*

Evites now go to all emails on file. One person responding can change the number of attendees to an event if both people in a couple don't want to respond. ALL members should be getting emails generated by the website, and all members can access the Evites from the website event listing and, in most cases, from Facebook (members only events are not publicized on Facebook).

If you are not getting emails generated from the website, please see Doug Dodgen to verify your membership information.

Evites always contain the phone number of the person leading the drive/event. If you have questions or are running late, please contact that person.

## 2020 Texas Miata Challenge

1. Ever since Bragg Road has existed there have been reports of mysterious lights seen along its course. Usually these are either red or white in appearance, and in one instance a mysterious light form is said to have buzzed the occupants of a car, showing that close encounter cases do exist in connection with the location. To reach the Ghost Road, take U.S. 69 at Kountze to FM 326, from there take the turn onto FM 770 which will take you directly to Saratoga. Go through Saratoga and at a right on FM 787 turn, the Ghost Road is not far off the beaten path.

2. Jefferson was declared the Bigfoot Capital of Texas by town proclamation on February 12, 2018, by the mayor, Carey Heaster Jr. Jefferson has been the host city of the Annual Texas Bigfoot Conference, organized by the Texas Bigfoot Research Center, since 2001.

3. Just east of Marfa lies another engaging attraction for visitors to the Davis Mountains area. The Marfa Lights confound thousands of people each year who flock to the site for a chance to see the elusive ethereal orbs suspended in the air with no apparent source. There are many theories about the unexplained phenomenon, from Apache Indian folklore to UFO sightings; however, a scientific explanation has yet to emerge. First documented in 1883, the lights' explanations range from static electricity to swamp gas to St. Elmo's fire or even flying saucers. Although it is elusive, many believe the truth is out there.

4. It's said to be a dark, black thing; a thing that can blend so well into the murky bog that it's virtually invisible. Known locally as the "Ottine Swamp Thing" or simply "The Thing," this alleged cryptid falls somewhere between a Skunk Ape and something far more unexplainable. The creature has long been on my radar, but only recently did I get an opportunity to visit Ottine Swamp and delve more deeply into the details of this intriguing legend. Ottine Swamp itself is a 198-

acre wetland located along the San Marcos River in South Central Texas. It sits on the edge of the small, unincorporated community of Ottine, and is part of the larger Palmetto State Park. Like the park, the swamp offers a unique habitat not typically found in Central Texas. This is due to the presence of dwarf palmetto (*Sabal minor*) and Spanish moss (*Tillandsia usneoides*), which are more commonly found further east along the Gulf Coast. Sulphur springs – known regionally as "Mud Boils" – were also present in the area until they dried up in the 1970s. But even today, the place oozes with a spooky, primordial atmosphere like a forgotten remnant of the Jurassic age. During daylight hours, it would not seem surprising if a dinosaur walked out of the thick palmettos. As nightfall approaches, the swamp takes on an even more mysterious appearance as the pointed fronds of the alien plants crouch among shaded bogs of standing water.

5. During the 1896–1897 timeframe, numerous sightings of a cigar-shaped mystery airship were reported across the United States. One of these accounts appeared in the April 17, 1897, edition of the Dallas Morning News. Written by Aurora resident S.E. Haydon, the alleged UFO is said to have hit a windmill on the property of a Judge J.S. Proctor two days earlier at around 6am local (Central) time, resulting in its crash. The pilot (who was reported to be 'not of this world', and a 'Martian' according to a reported Army officer from nearby Fort Worth) did not survive the crash, and was buried 'with Christian rites' at the nearby Aurora Cemetery. (The cemetery contains a Texas Historical Commission marker mentioning the incident.)

6. The White Sanitarium (aka the Old Insane Asylum, aka Hotel California) is one of the most notorious haunts in Wichita Falls. For years, people have claimed to have heard voices coming from within and there have even been reports of apparitions wandering the grounds. On one account, a group of ghosts were spotted playing cards in the old recreation room. The sanitarium has proven to be a hit for ghost hunters. In 2008, local ghost hunters T.R.I.P.P. Paranormal Research spent some time at the asylum and captured some EVP's (electronic voice phenomena) as well as chilling footage of

what appears to be flying insects in the room, except the crew claims there were no insects present at the time.

7. Just a block from the Hood County Jail Museum, a tour stop at the Granbury Opera House reveals a local link to one of the worst crimes of 19th-century America. Originally built in 1886, the theater was renovated four years ago as the new home of the Granbury Theatre Company. Inside, twin curved staircases lead from the redesigned lobby to the balcony level, where there's one particularly notorious seat. The seat reportedly belongs to the ghost of John Wilkes Booth, the actor and Confederate sympathizer who assassinated President Abraham Lincoln in 1865. According to local actors who work in the Granbury Opera House, the haunted seat sometimes folds down on its own accord.

8. The Devil's Backbone Tavern, built on the site of an ancient Indian campground, is widely believed to be haunted. An entire Civil War battle is said to have occurred on the Devil's Backbone limestone ridge. "Oh, there are ghosts, I guaran-goddamn-tee you," said Robert Kelly, a tavern regular who said he sometimes sees shadowy figures on a steep nearby ridge called the Devil's Backbone, for which the tavern is named. Stretching from Wimberley to Blanco, the ruggedly scenic area known as Devil's Backbone resulted from an earthquake that

occurred in the region more than thirty million years ago. The powerful earthquake helped separate the land into two different regions, the Edward's Plateau to the west and the lower Gulf Coastal Plains to the east.

9. Every great hotel must have its ghost, and the Hotel Galvez has one who has been around at least a half century. According to Jan Johnson (a fifth-generation Galvestonian and the author of Walking Historic Galveston), the Galvez ghost could be a bride-to-be-named Audra. Legend has it that was about twenty-five years old and stayed in Room 501. Then tragedy befell her.

10. Near the south bank of the San Antonio River, a fortress stands out against the local backdrop of anaqua trees and warm blue skies. Through two revolutions, countless skirmishes, and untold hours of everyday life in times gone by, Presidio la Bahia has stood on this spot since 1749. Now serving as a museum, church, and occasional hotel, La Bahia holds centuries of history both on its grounds and beneath them, in forms

ranging from monuments in honor of its heroes to mass graves of the unknown departed. Although the cannons on its parapets have long been silent, many believe that the hundreds of souls to leave this plane on the grounds of La Bahia have left behind a goodly number of unquiet stragglers.

'Those of you that don't believe, I'm glad you're on this tour', Angela Morgan tells a crowd of about 150 ghost-seekers one Saturday night a couple of weekends before Halloween. 'Because as long as you're taking photos, at the very least you're going to leave here with orbs, apparitions, fogs, mists.

The Goat Man of the Lake. The Island Monster. What else would you name a 7-foot-plus tall being that could hurl car tires like they were mere child's play toys and appear sailing from the treetops to land with full force on the hood of passing cars? So goes the legend of the Lake Worth Monster.

# MATG XXIV

August 6-9, 2020

First things first, a bit of business; we are still continuing, as planned, to see you in August. Contact with both government and lodging officials is being maintained and we will keep you as up-to-date as possible here.

Simply put, MATG is THE longest running Miata gathering in the country. Located in the midst of some of the greatest driving roads in the country, we are one of the largest gatherings of Mazda Miatas and owners in the US.

Attendees range from Miata newbie to 20+ year veteran and their vehicles from stock to Excocet/track rat and all forms in between. They come from all walks of life and some even come from other countries to attend each year. The cars were meant for these roads and the area doesn't disappoint.

Ground Zero for the event is the Fontana Village Resort (link, map) located in the middle of Miata driving paradise. The main attraction for the Miata enthusiast is the legendary Tail of the Dragon. Being in close proximity to other options like Wayah Road, the Cherohala Skyway, Moonshiner 28, Devil's Triangle TN, Six Gap in Georgia, and Diamondback 226A means endless hours and days of driving bliss.

Miata, MX-5, Eunos Roadster, whatever you call it, the Mazda Miata is the most popular sports car ever made. With more than 1,000,000 built since 1989 and fans and enthusiasts the world over love to come together to enjoy great driving roads, make lasting friendships, and enjoy being a part of the greatest group of car enthusiasts around.

## Other Details

We have vendors for all types of Miata upgrades, a tent with event t-shirts and commemorative dash plaques, a schedule of organized drives, and the infamous beer and wine swap on Saturday night. There is also a General Store nearby to keep you fed and hydrated for your driving adventures while providing a great meeting point.

# Miatas at Margaritaville

September 25-27, 2020

Hotel rooms are filling up fast!

Wow! Response has been great! Over 150 people have already made hotel reservations, exceeding our original 80-room discounted room block. The resort will continue to take additional reservations at the discounted group rate, as long as rooms are available.

Visit [miatasatmargaritaville.com](https://miatasatmargaritaville.com) and click on "Host Hotel" to make your room reservation now before the resort fills up. Don't worry about losing money if you later decide you can't make it. The resort will provide full refunds for cancellations made at least three days in advance.

We're confident conditions will allow us to hold the event; however, due to the uncertainty of the long-term impacts of the current Covid-19 pandemic, we're going to delay opening event registration until late June.

Our event planning committees continue their work through virtual meetings and our route planners went out earlier in the year and made several test drives around Margaritaville. They mapped out many great fun drives and some that take in interesting sites around the area. We'll post them on the website soon.

We look forward to seeing you at Margaritaville this fall. Stay safe and stay healthy!

News Update 4/16/2020

We hope this message finds you and your loved ones well. With all the health concerns and uncertainty surrounding the current coronavirus situation, we're reaching out to our Miata family to let you know where things stand at the moment regarding Miata Reunion 2020. With the situation changing week by week, we've decided to postpone on-line event registration until July 25th, in the hope that there will be a clearer picture by then. At the same time, in the interest of everyone's health and safety, we're also considering the cancellation of the Saturday Halloween Party; however, we will hold the final decision until closer to the event. The safety of everyone attending the Reunion has always been our top priority; however, this year, safety takes on a whole new meaning. While we will do everything in our power to ensure the event happens as planned, please know that your health and well-being remains our most important focus. Please stay tuned for further updates.
